We at IBSG  
believe that Great professional design should be  
accessible to all!  
As a passionate Interior Design Studio, we hold  
proficiency in creating beautiful,  
comfortable & inspiring interiors for our clients...

*Whether it be where they live, Where they eat,  
Where they Work... Where they Shop..  
Or Where they visit  
for entertainment, fun and leisure!*

# MEET OUR FOUNDER

IBSG is captained by Sakshi Gehani, who at a young age has proved her mettle by bringing life to versatile dreams of her clients and creating inspiring spaces.

With an atypical and youthful sense of design, Sakshi steered her way into the designer's fraternity as an Interior Designer and a Space transformer in the year 2013, all at the age of 19. It was about 4 years later at the age of 23 when the lack of creative liberty and the desire to better design practices made Sakshi bootstrap IBSG with only some limited savings, love for design and sheer passion to transform lives through her designs as her capital!

Her designs spell elegance, comfort and an original identity of their own rooted out of the core of each client's likes and needs
